Additional items needed for completion.

- Tools needed for assembly
- A plug igniter
- A Ni-Cd battery

Additional items needed for starting engine.

- Fuel
- A 2 channel radio system

Your 2 channel radio system

- Please read the instructions provided with your radio system before using it.

The servos must be set at the center position before use. Turn on the transmitter and receiver. Set the trim tabs in the center position, and turn the engine throttle servo to the neutral position. Turn on the transmitter and receiver.
Before you start to assemble the kit, please see the instruction manual to the end.

Before you install, get suspension shafts J0104U, J0104L through into J0101R & J0101L to expand holes a bit.

Make sure suspension shafts J0104U, J0104L, turn smoothly.
